RE-EMPHASIS ON RESPONSIBILITY

1973-74 witnessed a return to pre-Vietnam standards. The volunteer concept was in; the draft was out. Emphasis was on the quality of the individual Midshipman rather than the size of the Unit. The mission statement of the NROTC program was revised to stress professionalism, career motivation and potential for command. The daily watch-words became: Duty - Honor - Loyalty.

Those who could not - or would not - meet the challenge have dropped from our ranks. To those of you who go to the Fleet or the Marine Corps this year - good luck and best wishes for a long and rewarding career.

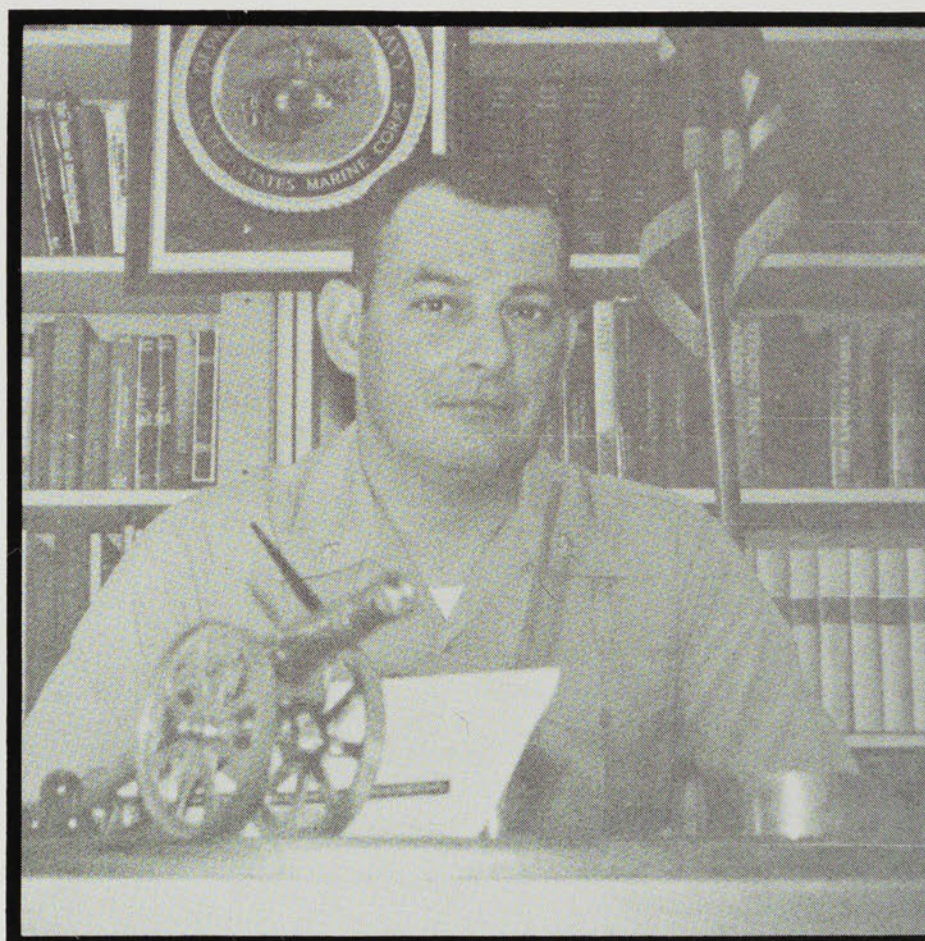

To those who remain in the Unit - resolve to work hard at learning all you can about your profession so that when and if you are called upon you will be ready to accept the greatest test of all - leadership in combat.
